Re-opening your Business

As we move forward in the different stages of e-opening the state. We put together some of the best practices and information to help you through these transitions.

Keep yourself safe and informed

Stay up to date by following credible, official sources so you can respond quickly to changes that could affect you or your customers.

- Follow your local government health department Facebook page to stay up-to-date on changes in your area
- Follow [World Health Organization](#) (WHO) Facebook page.

Stay in touch with your customers

Proactively share information with your customers using email, your website, Facebook Page, Instagram Business Profile, or however you typically connect.

- You might share how you're keeping your premises or products safe or how people can place orders
- Notify customers of changes to your availability or services to keep customers updated

Prepare a customer service plan

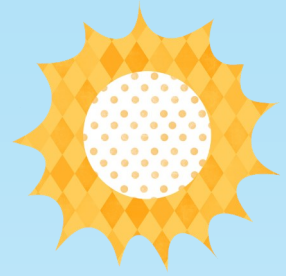

Stay responsive and transparent with customers by preparing for inbound questions and requests.

- Chat in real time using Facebook Messenger, Instagram Direct Messages or a WhatsApp business profile
- Set up instant-reply messages for frequently asked questions

Payroll Protection Program (PPP)

Funds are still available for the Federal "Payroll Protection Program", according to our bankers and SBA associates! Additionally, the SBA reminds us that their 504 Loan Re-finance Program is available at 2.7%! Contact your local lending institutions for details.

STAY SAFE, PRACTICE SOCIAL-DISTANCING, WASH YOUR HANDS, WEAR YOUR MASKS

"The only way to do great work, is to love what you do."

-Steve Jobs

Peak Community Services

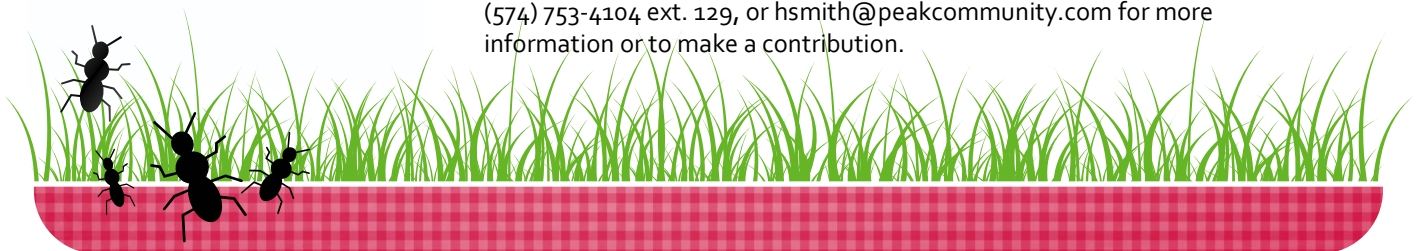

Peak Community Services, Inc. has been a part of Cass County since 1954. For more than 65 years, Peak has been a service provider for persons with intellectual and developmental disabilities. There are a wide array of services available: at Peak's Day Services Life-Skills building, in Peak's Pre-Vocational Workshop, through community based employment, in supported group homes, and in 24 hour and non-24 hour community living settings. Peak's Mission of Creating Opportunities – Supporting Success is alive and well, even in these challenging times of the Covid-19 outbreak.

While this pandemic has affected virtually every person in at least some aspects of daily routines, the same is true for people who are served by Peak Community Services. This segment of the local community also desires and requires continuity in their lives, and dedicated Peak staff have stepped up to ensure that persons served receive the care and attention in order to live their best lives.

As was the case for any other company determined to keep their business operating and employees working, adjustments were necessary. Staff scheduling and training were necessary to allow for different methods and settings of making sure consumer needs were served in the best and most efficient ways possible. Altering shift schedules, working longer hours, traveling farther distances, these are only a sampling of changes made by Peak staff in order to meet individuals' needs.

It is this dedication to serving others, and putting others before themselves, that the community can take pride in. A local service agency with caring employees committed to providing vital services and support in these extraordinary times is part of the fabric of our landscape.

You can demonstrate and honor this dedication in several ways. Peak Community Services is currently accepting donations of N95, surgical, and non-surgical masks to protect staff as they enter and care for persons in their own homes or in supported group homes. Face shields, gowns, gloves, and hair covers are also needed. A financial contribution will have the greatest impact and allow for the purchase of much needed everyday items. Please contact Harrison Smith, Senior Director of Operations, at (574) 753-4104 ext. 129, or hsmith@peakcommunity.com for more information or to make a contribution.
